The 6m Single Activity Net is an impressive climbing structure designed to challenge older children while developing strength, balance, coordination, and spatial awareness. Its expansive rope network encourages adventurous play, problem-solving, and confidence-building as children explore multiple climbing routes and heights. The large design also supports social interaction, allowing several children to climb, rest, and play together, making it a striking focal point for any playground.

Play Panels + HDPE Products

For consumable parts:
- Beaters
- Cables

For electronic failure caused by manufacturing defects in:
- Speakers
- Sound chips
- Circuit boards

For mechanical failure caused by faulty workmanship or material defects in:
- Moving parts
- Standing and heavy duty springs

For defects resulting from the manufacture of:
- High density polyethylene sheets
- Structural steel components
