6.4m x 6.4m

The 3m Cone Climber is a striking climbing structure that offers a high-level challenge for confident and adventurous children. The expansive rope net develops strength, balance, coordination, and spatial awareness, while encouraging problem-solving and risk assessment as children explore different climbing routes. Its impressive height and open design make it a focal point for active play, promoting confidence, resilience, and social interaction as children climb, rest, and play together.
