The Lunar is a compact climbing and traversing unit from our Quest Range, designed to encourage agility, coordination, and adventurous play. Featuring an overhead challenge, climbing holds, net platform, and curved balance route, Lunar provides a rewarding physical challenge that helps develop strength, confidence, and problem-solving skills. Its space-efficient design delivers high play value while encouraging children to test their abilities and build resilience through active play.

Our modular play system allows components to be mixed and matched to create the ideal play solution for each site. Platforms, slides, climbers, bridges, tunnels and play panels can be combined in countless configurations, enabling designs to be tailored to available space, budget, age range and community needs. Inclusivity is considered throughout the range, with a variety of accessible and sensory-rich play features available that can be seamlessly incorporated into designs to further enhance play opportunities for children of all abilities. This flexible approach ensures every playground delivers maximum play value while creating a unique and engaging environment for its users.
