The Explorer is a dynamic climbing unit from our Quest Range, designed to encourage adventurous play, agility, and confidence. Featuring multiple climbing routes, traversing challenges, balance elements, and overhead activities, it inspires children to test their abilities, develop coordination and strength, and create their own pathways through the structure. With its open design and progressive challenges, Explorer delivers high play value and keeps children engaged through active, rewarding play.

Our modular play system allows components to be mixed and matched to create the ideal play solution for each site. Platforms, slides, climbers, bridges, tunnels and play panels can be combined in countless configurations, enabling designs to be tailored to available space, budget, age range and community needs. Inclusivity is considered throughout the range, with a variety of accessible and sensory-rich play features available that can be seamlessly incorporated into designs to further enhance play opportunities for children of all abilities. This flexible approach ensures every playground delivers maximum play value while creating a unique and engaging environment for its users.
