The Severn is an engaging play unit from our River Range, combining a stainless steel slide, bridge crossing, climbing access, sheltered tower, and interactive sensory panels to support active and imaginative play. Designed to develop balance, coordination, and confidence, Severn offers a variety of play experiences while encouraging social interaction and exploration. Its compact footprint and inclusive sensory features make it an excellent choice for parks, schools, nurseries, and community play spaces.

PROBLEM SOLVING

Our modular play system allows components to be mixed and matched to create the ideal play solution for each site. Platforms, slides, climbers, bridges, tunnels and play panels can be combined in countless configurations, enabling designs to be tailored to available space, budget, age range and community needs. Inclusivity is considered throughout the range, with a variety of accessible and sensory-rich play features available that can be seamlessly incorporated into designs to further enhance play opportunities for children of all abilities. This flexible approach ensures every playground delivers maximum play value while creating a unique and engaging environment for its users.
