The Donard is a compact yet engaging play unit from our Mountain Range, designed to encourage climbing, coordination, and active play. Featuring a slide, arched climbing frame, enclosed climbing tower, and connecting bridge, it offers a variety of routes that help children build confidence, balance, and physical skills. Its space-efficient design makes Donard an excellent choice for playgrounds looking to maximise play value within a smaller footprint.

Our modular play system allows components to be mixed and matched to create the ideal play solution for each site. Platforms, slides, climbers, bridges, tunnels and play panels can be combined in countless configurations, enabling designs to be tailored to available space, budget, age range and community needs. Inclusivity is considered throughout the range, with a variety of accessible and sensory-rich play features available that can be seamlessly incorporated into designs to further enhance play opportunities for children of all abilities. This flexible approach ensures every playground delivers maximum play value while creating a unique and engaging environment for its users.
