The Discovery is an engaging challenge unit from our Quest Range, designed to encourage balance, agility, and adventurous play. Featuring suspended stepping pods, climbing elements, traversing challenges, and multiple routes through the structure, it helps develop strength, coordination, confidence, and problem-solving skills. With a variety of movement-based activities that inspire children to test their abilities and explore new challenges, Discovery delivers high play value for parks, schools, and destination play spaces.

Our modular play system allows components to be mixed and matched to create the ideal play solution for each site. Platforms, slides, climbers, bridges, tunnels and play panels can be combined in countless configurations, enabling designs to be tailored to available space, budget, age range and community needs. Inclusivity is considered throughout the range, with a variety of accessible and sensory-rich play features available that can be seamlessly incorporated into designs to further enhance play opportunities for children of all abilities. This flexible approach ensures every playground delivers maximum play value while creating a unique and engaging environment for its users.
