The Asteroid is a high-energy challenge unit from our Quest Range, combining climbing nets, traversing elements, balance challenges, and a slide to create an exciting play experience. Designed to build confidence, strength, coordination, and problem-solving skills, it encourages children to explore, take on new challenges, and stay active. With multiple routes and varied levels of difficulty, Asteroid offers lasting play value for parks, schools, and destination play spaces.

Our modular play system allows components to be mixed and matched to create the ideal play solution for each site. Platforms, slides, climbers, bridges, tunnels and play panels can be combined in countless configurations, enabling designs to be tailored to available space, budget, age range and community needs. Inclusivity is considered throughout the range, with a variety of accessible and sensory-rich play features available that can be seamlessly incorporated into designs to further enhance play opportunities for children of all abilities. This flexible approach ensures every playground delivers maximum play value while creating a unique and engaging environment for its users.

## Play Panels + HDPE Products

For consumable parts:  
- Beaters  
- Cables

For electronic failure caused by manufacturing defects in:  
- Speakers  
- Sound chips  
- Circuit boards

For mechanical failure caused by faulty workmanship or material defects in:  
- Moving parts  
- Standing and heavy duty springs

For defects resulting from the manufacture of:  
- High density polyethylene sheets  
- Structural steel components
