The Cosmos is a versatile challenge unit from our Quest Range, designed to encourage climbing, balancing, and adventurous play. Featuring rope nets, balance elements, stepping pods, traversing challenges, and multiple climbing routes, Cosmos helps develop strength, coordination, agility, and confidence while keeping children engaged through progressive physical challenges. Its open design promotes social interaction and creative route-finding, delivering high play value for children seeking active and rewarding play experiences.

Our modular play system allows components to be mixed and matched to create the ideal play solution for each site. Platforms, slides, climbers, bridges, tunnels and play panels can be combined in countless configurations, enabling designs to be tailored to available space, budget, age range and community needs. Inclusivity is considered throughout the range, with a variety of accessible and sensory-rich play features available that can be seamlessly incorporated into designs to further enhance play opportunities for children of all abilities. This flexible approach ensures every playground delivers maximum play value while creating a unique and engaging environment for its users.
