The Derwent is a fun and engaging play unit from our River Range, designed to promote active, social, and imaginative play. Featuring a stainless steel slide, elevated bridge, climbing access, and interactive play panels including educational and sensory activities, Derwent offers a varied play experience that supports children’s physical, cognitive, and social development. The enclosed bridge and spacious platforms encourage confidence and cooperative play, while the interactive panels provide inclusive, ground-level engagement opportunities for children of different abilities. Compact yet packed with play value, Derwent is an excellent choice for parks, schools, nurseries, and community play spaces.

Our modular play system allows components to be mixed and matched to create the ideal play solution for each site. Platforms, slides, climbers, bridges, tunnels and play panels can be combined in countless configurations, enabling designs to be tailored to available space, budget, age range and community needs. Inclusivity is considered throughout the range, with a variety of accessible and sensory-rich play features available that can be seamlessly incorporated into designs to further enhance play opportunities for children of all abilities. This flexible approach ensures every playground delivers maximum play value while creating a unique and engaging environment for its users.
