

Tyne
R107

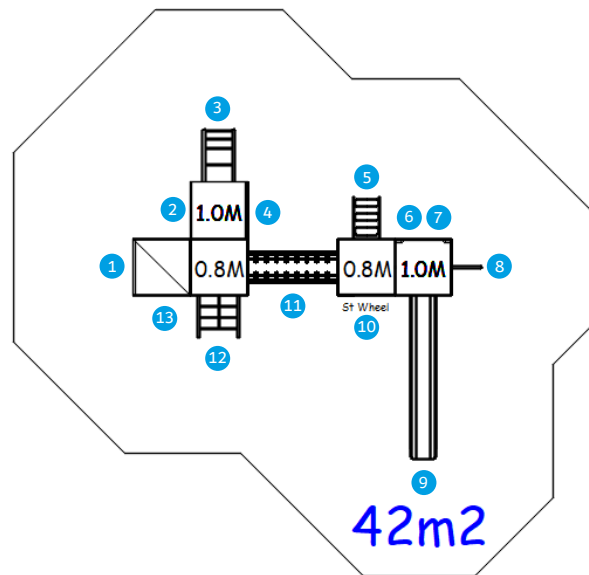

2+	15	16hrs	1000	42	7.715mx7.46m	

The Tyne is a compact and engaging play unit from our River Range, combining a slide, climbing elements, interactive maze panel, bridge, and sheltered tower to encourage active and imaginative play. Its standout inclusive feature is the triangular access steps, which provide a supportive alternative to ladders, helping younger children and those with reduced confidence, balance, or mobility access elevated play more easily. With a variety of play experiences that promote coordination, confidence, and social interaction, Tyne is an ideal addition to parks, schools, nurseries, and community play spaces.

Our modular play system allows components to be mixed and matched to create the ideal play solution for each site. Platforms, slides, climbers, bridges, tunnels and play panels can be combined in countless configurations, enabling designs to be tailored to available space, budget, age range and community needs. Inclusivity is considered throughout the range, with a variety of accessible and sensory-rich play features available that can be seamlessly incorporated into designs to further enhance play opportunities for children of all abilities. This flexible approach ensures every playground delivers maximum play value while creating a unique and engaging environment for its users.
