The Clyde is an engaging multi-play unit from our River Range, designed to encourage active, adventurous, and inclusive play. Featuring a slide, crawl tunnel, climbing ladders, rope climbing net, and overhead crossing challenge, Clyde helps children develop strength, coordination, balance, and confidence while having fun. Multiple access points and varied levels of challenge cater to a range of abilities, while the integrated abacus play panel adds an educational and sensory element. Spacious platforms and interconnected play features encourage social interaction, imaginative play, and cooperative adventures, making Clyde an excellent choice for parks, schools, housing developments, and community play spaces.

Our modular play system allows components to be mixed and matched to create the ideal play solution for each site. Platforms, slides, climbers, bridges, tunnels and play panels can be combined in countless configurations, enabling designs to be tailored to available space, budget, age range and community needs. Inclusivity is considered throughout the range, with a variety of accessible and sensory-rich play features available that can be seamlessly incorporated into designs to further enhance play opportunities for children of all abilities. This flexible approach ensures every playground delivers maximum play value while creating a unique and engaging environment for its users.
