Goodison is a high-capacity multi-sport goal unit designed to encourage active play, teamwork and social interaction within parks, schools and community spaces. Combining football and basketball in one robust structure, it provides a versatile area for a wide range of games and activities. The enclosed design helps keep balls within the play space, improving safety and reducing interruptions, while its larger size allows more users to play at the same time. This makes the Goodison an excellent feature for promoting physical activity, developing sporting skills and creating a vibrant, inclusive recreational environment.

SHARING

Football goals are a popular feature in parks, schools and recreational spaces, providing opportunities for active play, teamwork and social interaction. They encourage children and adults to take part in physical activity, helping to develop coordination, fitness and ball skills while having fun. Whether used for casual kickabouts or organised games, goals help create a vibrant, engaging environment that brings people together and promotes healthy outdoor play.
